WORK EXPERIENCE

Business Development Executive

Eteon Solutions

2025 - Present

- Manage end-to-end e-commerce operations across multiple high-traffic marketplaces, including Kapruka, Big Deals, and Daraz.
- Develop and maintain the official company website using WordPress, Elementor, and custom CSS to optimize the user interface and drive online sales.
- Direct product listings, competitive pricing strategies, and marketplace performance to maximize online visibility and conversion rates.
- Streamline vendor coordination and internal processes, significantly improving order turnaround times and overall operational efficiency.
- Execute targeted promotional and digital marketing campaigns that contribute to measurable revenue growth.

Junior Content Management Officer

Abans PLC

2022 - 2024

- Managed and optimized product content across multiple digital platforms, ensuring data accuracy and brand consistency.
- Collaborated seamlessly with digital teams to successfully launch new IT product lines, product updates, and high-impact promotional campaigns.
- Enhanced the customer journey by improving product categorization, digital presentation, and online data accessibility.
- Supported dynamic e-commerce workflows by aligning internal stakeholders and maintaining rigorous product data quality standards.

Intern - Business Operations

Infinite Business Ventures

2021 - 2022

- Assisted with core business operations, IT product handling, and critical administrative tasks.
- Supported project reporting and internal coordination, directly contributing to smoother day-to-day workflows.

EDUCATION

- **BSc (Hons) Business Information Systems** | Cardiff Metropolitan University | 2026 - 2027 (Reading)
- **HND in Computing and Software Engineering** | Cardiff Metropolitan University, UK | 2023 - 2026 (Completed)

PROJECTS & ACHIEVEMENTS

- **Corporate Website Development:** Built and currently maintain the Eteon Solutions website, expanding the company's online footprint and product visibility.
- **Business Information Systems Optimization:** Designed and proposed systemic workflow improvements for a construction company.
- **Orchi-Flora Project:** Developed an automated temperature analysis system tailored for optimal orchid growth.
- **Digital Product Launches:** Executed e-commerce process improvements and successful launches across various IT product lines.
